

SUSTAINABLE PACKAGING

Air-pillow films with
recycled materials.

AIRWORKS

our passion is product protection

EVERYONE IS TALKING ABOUT IT; WE DO IT: RECYCLING

With our GreenLine, we ensure resource-saving and the closed loop environmental cycle: the air-pillow film comprises at least 30 % recycled material. With GreenLine, we save a lot of valuable resources – the usual AIRWORKS benefits of our films are retained: low weight and low shipping costs with reliable protection and high load capacity.

Of course, GreenLine is compatible with all CIRRUS machines.

Are you sustainably intrigued?

Just get in touch. We look forward to answering any questions you may have.
