

# SUSTAINABLE PACKAGING

Air-pillow films with  
recycled materials.

**AIRWORKS**

our passion is product protection

# YOUR PACKAGING SHAPES YOUR BRAND EXPERIENCE

With our pink GreenLine sustainability meets style.

The air cushion foil contains at least 30% recycled material and helps conserve resources through a closed-loop approach – without compromising performance. The usual AIRWORKS benefits of our films are retained: low weight and low shipping costs with reliable protection and high load capacity. The air cushion foil is now also available in pink – ideal for cosmetics and lifestyle brands that want packaging to match their colour world and corporate design, while creating a memorable unboxing experience for their customers.

## Are you sustainably intrigued?
