SUSTAINABLE PACKAGING

Air-pillow films made from over 90 % recycled materials

AIRWORKS

our passion is product protection

MAXIMUM RECYCLING. MINIMUM FOOTPRINT.

With our RecycLine, we are setting new standards in sustainable packaging. This air cushion film is made from over 90 % recycled material and is 100 % recyclable. By closing the loop, we conserve valuable resources and cut CO₂ emissions – without compromising on the proven AIRWORKS advantages: lightweight design, low shipping costs, reliable protection and high load capacity.

Of course, RecycLine is compatible with all CIRRUS machines.

Are you sustainably intrigued?

Just get in touch. We look forward to answering any questions you may have.
